SANITIZATION SYSTEM "MecHEALTHY Air" - PROFY

Sanitization system for rooms, surfaces and objects, by means of a vaporizer. It is composed by oil-free compressor, spiral hose and tank kit with 8 μ nebulizer. Low sound level system, low engine revs, portable and suitable for heavy usage. Designed to be used with Easychlor or sanitizing. Ideal for vehicle sanitization thanks to this new anti-drip vaporization system, which does not create halos inside the passenger compartment.

Ref.	Description	Suctioned Air	Voltage	Power	Engine revs	Pressure	Sound Level	Tank	Weight	Packag.
		l/min	AC V./Hz DC Volt	Hp/Kw	rpm	Bar	dB(A)	l	kg	mm
